Branch (General)

Subject

The number of deaths from plague given by the Senior Surgeon in his annual medical and Sanitary report for 1902.

Offg Senior Surgeon's letter No. 9118 of the 3rd September 1903.

The draft review on the above report was submitted to the Dewan on 31-8-03.

On checking the number of plague deaths given by the Senior Surgeon in his report with that reported to the Secretariat (Plague Branch) by the Dy Commrs and Presidents of Municipalities, it was found that the Senior Surgeon's figures were in excess by 1114, the no given in the report being 26301. This discrepancy was pointed out to the Senior Surgeon and he was asked to revise the figures given in the report, if necessary. In reply, the Offg Senior Surgeon states that the figures entered by him in the report are those furnished to him by the

Deputy Commrs & Presidents of Municipalities and that he is not responsible for the discrepancies, and forwards the original statements rec'd by them.

Subd for orders as to whether the Correspondence may be filed. His No indexes is only 114. Deaths which could not perhaps be readily put down for plague at the time of the occurrence seem to have been treated as such by the Dy Commrs while reporting the same to the Senior Surgeon for incorporation in his report.

Enclosure Notice

In this docket No: 1717-21 dated 2d instant.

In reply, has the honor to state that the statistics furnished to the Senior Surgeon and Sanitary Commissioner with the Government of Mysore were compiled from the statements received from the Amildars to whom a copy of the statement had been sent for the supply of information required by the Senior Surgeon in April last. As complete informations were not then

they available in this office for the preparation of annual accounts, the paid Taluk returns could not be Checked and Verified. Hence this difference in figures which is mainly due to a few number of Cases of one month having been included in the subsequent months owing to the non-receipt of particulars from the Taluks in time. Requests therefore that the figures furnished from this office to Government may be kindly adopted as they are ascertained to be Correct.

Enclosure No.

With reference to his
No 1717-21 dated the 2nd
ultimo, has the honor to state
that the difference of two
deaths in question is due to
the following reasons.

(1) 3 deaths relating to
attacks of december 1901
were, by mistake, included
in the figures of January 1902,
in the statement submitted

to Government.

2). One death was shown in excess, in November 1902, in the statement forwarded to Senior Surgeon and Sanitary Commissioner

The correct figures for January and November 1902 are 178 and 336 deaths respectively

Sir. With reference to your docket No 1717-21 dated 2nd Inst. noticing some discrepancies between the Plague Statistics furnished to Govt. and to the Senior Surgeon & Sanly Commnr. with the Govt of Mysore, I have the honor to state as follows: — The Senior Surgeon had called for certain Statistical Statements for the Calendar year 1902. Shewing plague cases and deaths according to ages and castes. These particulars were not available in this office and the Amildars were called upon to furnish them. The above Statements were compiled from the figures given by the Amildars and forwarded to the Senior Surgeon as he wanted them very urgently. The figures reported to Govt. are correct being compiled from the daily returns submitted to Govt. every day and have been shewn in the annual returns. I beg to request therefore that the latter may kindly be adopted.

Enclosure No.

With reference to this docket no 1717 dated 2/10th September 1905, has the honor to state that the figures furnished to the Senior Surgeon for the Plague Administration report were the correct figures as they were newly compiled from fresh lists received from the Amildars. The discrepancy is mainly due to the delay of one day from the date of occurrance of a case and the date of report from this office. This fact has already been communicated to the Senior Surgeon.
